I had the pleasure of working with Kevin at Libro Credit Union. From the very beginning, I found Kevin to be intelligent and insightful, careful to take the time to fully understand a situation before suggestion improvements. The innovations he suggested were well thought out taking into consideration the realities of budget and resource constraints. In addition to his technical abilities, I also appreciated his sense of humor and how well he got along with the team. I would gladly work with Kevin again in the future!

I have had the pleasure of working with Kevin for the last 3 + years. Kevin is a fantastic person, he's smart, dedicated, and extremely well rounded in all digital marketing fields. Kevin's ability to communicate the essence of a project is a major reason why we're able to perform successfully for Libro. He's a digital native, with a common-sense approach to business, Kevin has a remarkable aptitude for understanding and executing the technical and strategic requirements to achieve a successful digital campaign. Kevin would be an asset to any organization.

Kevin's ability to translate technology concepts ensuring a common understanding across stakeholders was a huge asset to our people and projects. I've had the pleasure of working with Kevin as his supervisor at Libro Credit Union since 2014. Above all, his big picture thinking — the ability to look up and not get lost in the weeds, allowed Kevin to prioritize tasks and projects that made the most impact. I wouldn't hesitate to recommend Kevin as a team member or leader.

I had the pleasure of working with Kevin on a new digital platform for Museum London. Kevin worked with Museum staff and visitors to steer the process of research, planning and implementation which led to a great new product that brought audiences closer to the Museum's permanent collection. I would recommend Kevin's skills and abilities to anyone looking for honest consultant with new ideas and approaches.
